

ARMY BASING PROGRAMME

PAC INFORMATION LEAFLET – ISSUE 3, APRIL 2017

MEET THE TEAM

Lyn Winfield – ABP Requirements Manager

I am the ABP Requirements Manager for DIO for the construction programme at Tidworth Garrison. I lead the requirements management to achieve the agreed ABP PAC programme timescales for delivery prior to units returning from Germany in 2019. This includes Junior Ranks, Officer and Senior single bed spaces, 15 new buildings, 42 alterations, six extensions, three demolitions and the provision of car parking spaces and hard standing.

Preparatory enabling works, tree and shrub removal are underway to the west of the site in preparation for a new SNCO Mess and new access road. I am proud to be working on the ABP and through the excellent communication and collaborative working relationship with Aspire Defence Capital Works and Tidworth Garrison, the teams are committed to complete construction on time, in budget and to provide a value for money facility that is not only fit for purpose for all end users but also a project that all stakeholders will be proud to have been associated with.

FIRST ACCOMMODATION UNITS FOR SOLDIERS ARRIVE AT ALDERSHOT ..

The arrival of Single Living Accommodation (SLA) Modular Units took place at Aldershot Garrison on Tuesday 14 March, contributing to a critical phase within the build programme to provide more than 2,600 bed spaces for Service personnel returning from Germany.

Personnel from ABP, Larkhill Garrison and Aspire in attendance at the Aldershot SLA media event

The SLA modular unit was moved by crane into position within the building structure and was witnessed by personnel from the ABP, Aspire and Aldershot Garrison. The event was covered by regional press and broadcast media.

The video of the SLA units and interviews with ABP and Aspire can be viewed at the link:

<http://www.gethampshire.co.uk/news/local-news/watch-aldershot-garrisons-new-soldier-12741828>

In addition to the SLA, new Mess facilities, stores, vehicle workshops, garages, gym facilities plus refurbished office accommodation will be provided at Aldershot to make sure that soldiers work and live in the best possible environment.

.... AND AT PERHAM DOWN

Work has also started at Perham Down with the arrival of the first SLA Modular Units on Monday 10 April (see below).

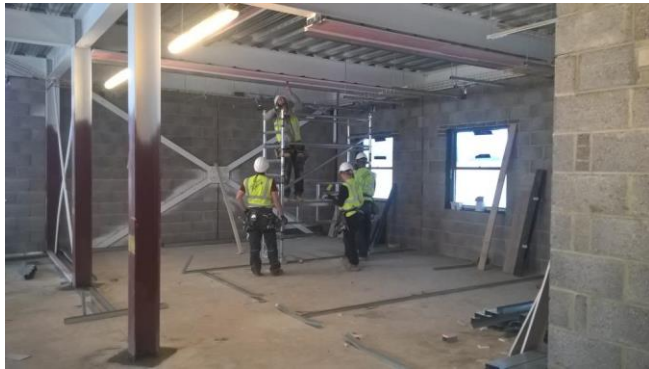

NEXT SIX MONTH PLANS

Construction works to be started and/or continued across the PAC Footprint between Apr 17 and Sep 17:

Larkhill

- New SLA (1362 total bed spaces)
- New Armoury
- New RHQ & Battery Offices
- Alterations to form new stores
- New training classrooms
- Utility Works
- Various car parks
- Various demolitions

Internal walls of offices at Larkhill being constructed using plasterboard on metal studs

Bulford

- New Armoury
- New Mess in Picton Barracks
- Physical Training & Recreation Facility / Gym extension
- Medical / Dental facility extension
- Removal of asbestos and subsequent demolition work including the Old Bakery, SFA and SLA
- New JRSLA – installation of utilities and foundations in preparation for module delivery in the summer
- New perimeter fencing and associated groundworks in Picton Barracks

Construction works at Bulford

Perham Down

- New SLA (252 total bed spaces)
- New RHQ offices
- New armoury extension
- New perimeter fencing and associated groundworks in Swinton Barracks

Tidworth

- New SLA (253 total bed spaces)
- New SNCO Mess

Aldershot

- New SLA (132 total bed spaces)

"These modern buildings are fantastic and provide soldiers with exactly what they need" - Lt Col Nigel MacGregor, Aldershot Garrison Commander with the SLA Modules at Aldershot

Enabling works, earthworks and ground improvements will take place across all sites. Aspire Defence works flexibly and responds to the needs of the DIO and the Army. Construction schedules are therefore subject to change. Agreed traffic routes and AA signage are in place to manage deliveries to garrison sites. To avoid adding to congestion at the main Larkhill Garrison entrance, a dedicated gate for construction traffic has been created. * *No construction activity planned at Warminster.*
